

Eastbourne District General Hospital (DGH)

CONTRACT VALUE

£4.8m

BUILDING

Main Block

PROJECT DURATION

May 2022 - ongoing

CLIENT

East Sussex Healthcare
NHS Trust

MAIN CONTRACTOR

Veolia UK limited

“This funding will deliver improvements to Eastbourne DGH that will mean a significant reduction in the use of energy across the site which will be a key part of our aim to provide sustainable healthcare.”

Chris Hodgson,

Director for Estates and Facilities,
Eastbourne DGH

PROJECT SCOPE

The works comprise overcladding using our insulated aluminium rainscreen and high-performance integrated windows as part of a range of energy efficiency and carbon saving measures in collaboration with Veolia, a leader in resource and energy management solutions.

A mock-up was installed to demonstrate how the building would look once completed.

Funding for the project was secured through the Public Sector Decarbonisation Scheme (PSDS) for affordable, low-carbon heating and energy efficiency upgrades across the public sector.

KEY OUTCOMES

Building life extended by more than 60 years

Heating energy consumption reduced by 70%

Operational carbon emissions reduced by 70%

Contemporary quality building - "looks like a new hospital"

Capital payback in c.10 years from savings in heating energy alone

Close collaboration ensured project progressed whilst the building was fully occupied with minimal disruption to patients and staff.
